

REMARKS:

In response to the outstanding Notice to File Missing Parts of Nonprovisional Application, this paper is accompanied by (1) the statutory basic filing fee and (2) a signed Declaration.

The Notice also required submission of a sequence listing in accordance with 37 CFR 1.821 *et seq.* Applicant has not submitted such a listing. Rather, Applicant has amended the application so that 37 CFR 1.821 *et seq.* do not apply.

According to 37 CFR 1.821 *et seq.*, a sequence listing must be provided if the application includes “an unbranched sequence of four or more amino acids or an unbranched sequence of ten or more nucleotides.” The only portion of the application that might have read on this requirement was page 7, lines 7 to 9, which listed a completely hypothetical sequence of twelve nucleotides. This listing has been amended to include only eight nucleotides. Accordingly, 37 CFR 1.821 *et seq.* do not apply to the application as amended, and no sequence listing is necessary.
